LinkedIn — GitHub — LeetCode

PROFESSIONAL SUMMARY

Aspiring Software Development Engineer skilled in Data Structures & Algorithms, backend development, and scalable full-stack applications. Experienced in building REST APIs, AI-integrated systems, and IoT-based solutions using React.js, Node.js, MongoDB, and MySQL.

TECHNICAL SKILLS

Languages: C++, JavaScript, Java, SQL

Core CS: DSA, OOPs, DBMS, OS, Computer Networks

Backend: Node.js, Express.js, REST APIs

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code

Concepts: System Design, Authentication, API Development

EDUCATION

Pranveer Singh Institute of Technology, Kanpur

Oct 2023 – Jul 2027

Bachelor of Technology in Information Technology

CGPA: 7.8/10

Navayuga Radiance Senior Secondary School, Lucknow

2022

Higher Secondary Education (CBSE)

70.4%

Navayuga Radiance Senior Secondary School, Lucknow

2020

Secondary Education (CBSE)

91.2%

PROJECTS

HerHealth AI — Healthcare Management System Node.js, Express.js, MongoDB, JWT, Mongoose, Postman
November 2025-June 2026

- Developed a healthcare management platform with secure JWT-based authentication and role-based access control.
- Built REST APIs for patient registration, login, doctor management, appointment booking, appointment tracking, and medical records.
- Integrated MongoDB Atlas cloud database using Mongoose and implemented protected routes with middleware authentication.
- Designed scalable backend architecture following MVC principles and tested APIs using Postman.
- Implemented CRUD operations for appointments, doctors, and patient medical records.

Krishi Insight Voice — React.js, Node.js, MongoDB, ESP32

Ongoing

- Built multilingual AI-powered agricultural assistant using NLP and Speech-to-Text pipelines.
- Designed 10+ RESTful APIs for real-time sensor communication and agricultural workflows.
- Integrated ESP32 IoT sensors for automated irrigation using soil monitoring.
- Implemented scalable MongoDB schema for storing telemetry and interaction data.

CampusTalk — Node.js, MySQL, NLP

Dec 2024 – Jul 2025

- Developed voice-enabled campus assistant for attendance, notices, and timetables.
- Implemented role-based authentication for students, faculty, and administrators.
- Optimized MySQL queries improving response efficiency and retrieval speed.
- Built modular REST APIs enabling scalable integration with future campus services.

ACHIEVEMENTS

- Solved 200+ DSA problems on LeetCode covering arrays, trees, graphs, and dynamic programming.
- AWS Cloud Practitioner Essentials Certified.
- Infosys Springboard Certified in Artificial Intelligence and Web Development.
- Engineered a modular backend architecture with authentication middleware, database models, and protected REST endpoints following industry-standard practices.

RELEVANT COURSEWORK

Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks, Software Engineering

LEADERSHIP & ACTIVITIES

- Collaborated in team-based software development projects using Git and GitHub workflows.
- Actively practicing competitive programming and backend development.
